# In the service of modern families

*Feel safe in situations that arise in the family and at work due to illness!*

*Plan and enjoy your aging, preserve and capitalize acquired values!*

- Institute focuses on the needs of **the people dedicated to the job** and on the needs **of families who live far away**.
- Areas of activity of the Institute relate to **the impact and consequences of illness and old age** within the family.

# Safe and innovative...

- The work of the institute is based on three principles: The modern client must **understand**, want **to plan** and be allowed **to participate!**
- The purpose of the Institute's activities is **effective communication** within the family and between families and institutions!

## ...across all professions - transdisciplinary

- By practicing a **transdisciplinary** approach, the Institute especially responds to the demands of the people living abroad and their families in native land.

# Tailor-made services...

## CONSULTATION

In a fast-changing society, numerous independent consultants ensure a dynamic exchange of experience and knowledge.

## INTERVENTION

It is not just about providing specific advice, but also about checking the availability of experts and optimal services and products.

## EXPERTISE

Tailor-made planning of the future under the supervision of international experts of various professions provides stability.

...understandable, available, anonymous

Thanks to translations and interpreting, all beneficiaries are in an equal position regardless of knowledge of foreign languages!

Online and live communication provides easy and quick access to the opinions of different experts from more than 20 countries!

Innovative identity protection enables to choose completely anonymous participation in communication.

# Added-value to health

-  Think and act calmly and with confidence;
-  Understand which experts and what products or services are needed;
-  Realize information, documents and correspondence;
-  Get understandable interpretations or translations;
-  Reduce administrative challenges;
-  Avoid unnecessary services;
-  Reduce work absence;
-  To know the possibilities for payment across the borders;
-  Manage healthcare costs...and several other values, too!

# Added-value to ageing

-  Stay active and productive;
-  Anticipate and plan on time;
-  Meet new people and visit new places;
-  Realize age-related situations;
-  Learn new communication between family members;
-  Adopt new communication between family and health care professionals, employers, insurances, as well as authorities;
-  Understand when and what products or services are needed in old age;
-  Consciously manage your rights and obligations.
